LEOPARDOLOGY™

The Hunt For Profit In A Tough Global Economy.

Heavily requested subsequent to the release of Kivi Bernhard's critically acclaimed new book, **Leopardology™ – The Hunt For Profit In A Tough Global Economy!** (Morgan James of NY, 2009) This is a high energy and penetrating audio-visual presentation that will take your audience deep into the African bushlands and open savannahs with the aid of award winning video footage. The African leopard is the most successful and adaptable feline predator on earth and is master of the solo hunt. Making clients is one thing, maximizing profit and retaining them as repeat clients is quite another. It is truly an art and fast becoming the determinant of who gets to stay in business to survive the global economic transition. With incredible platform excellence that has become Kivi's speaking signature, Kivi Bernhard will amaze, inform, motivate and inspire audiences with laughter and fun, as he extracts a possible solution from this majestic predator. This keynote will include three of the now internationally renowned "Pillars of Positive Predatory Thinking™" that make up Leopardology™: You got it! Critical business thinking and strategy gleaned from the hunt of Africa's most successful predator. It will literally leave your audience spell-bound – that is, as soon as they sit back from the edge of their seats! This presentation will empower and infuse attendees with a keen "knowledge of self" and will allow them to take precise inventory of their exact personal tooling and apparatus. This is critical, cutting-edge business and life thinking, presented like nothing you have ever experienced before. This keynote is, simultaneously, a visual, emotional and intellectual experience!

LEADERSHIP GONE WILD™

Critical Leadership From The African Leopard.

This is a 55 minute, high energy and penetrating audio-visual presentation that will take your audience deep into the African bushlands and open savannahs with the aid of award winning video footage. The African leopard is the most successful and adaptable feline predator on earth and is master of the solo hunt. Effective leadership in life and business is all well and good, but how to maintain it, and do so with constancy, is what truly distinguishes leaders from followers. So it is with “predator” and “prey!” The global economy we live in today has dictated that our business teams be comprised of much more successful individuals. With incredible stage presence, Kivi will amaze, motivate and inspire audiences with laughter and tears, as he extracts a possible solution from this majestic predator. This keynote will include three of the now internationally renowned “Pillars of Positive Predatory Thinking™” that make up Leopardology™: You got it! Critical business thinking and strategy gleaned from the hunt of Africa’s most successful predator. This presentation will empower and infuse attendees with a keen “knowledge of self” and will allow them to take precise inventory of their exact personal tooling and apparatus. They will then instinctively move towards consistent leadership, as does the beautiful African leopard. This is critical, cutting-edge business and life thinking, presented like nothing you have ever experienced before and has in fact been incorporated into the MBA curriculum of leading business schools in America.

EXCLUSIVE EXECUTIVE RETREAT IN SOUTH AFRICA

As a result of his unique association with Londolozi, perhaps the most exclusive and luxurious private game reserve in the world, Kivi Bernhard is able to offer what has to be the ultimate executive retreat! In the pristine setting of this privately owned game reserve, nestled in the heart of the South African bush-veldt, Kivi has enthralled top level executives, while they maximize four days of strategic planning and think-tanking under African skies, starting and ending each glorious day with a game drive viewing Africa's big five.

This will absolutely redefine "executive retreat" or "incentive" experience for any meeting planner. While, logistically, numbers in excess of twelve people are somewhat more involved to manage, Londolozi has facilitated incentive programs for up to sixty people. Take a look at www.londolozi.com.

Hearing Kivi's signature programs, "Business Gone Wild™," presented under a starlit African sky in an open air theater, will be an experience your team will truly never forget!

P.S. It's going to get wild!
